XS750 OIL PUMP ASSEMBLIES

The XS750 model series has used three different oil pump assembly designs. Please refer to the chart below when ordering replacement oil pump parts.

Oil pump assemblies can be identified by the width of the rotor assembly. See the illustration below for identification.

CAUTION: The following oil pump components are not interchangeable between pump assemblies. Reduced oil pressure or pump damage can occur through mismatching of components. Use care when ordering and servicing.

AFFECTED MODELS: All XS750D, XS750-2D, XS750E, XS750SE

PART	PART NUMBER	APPLICATION
Housing, Rotor	1J7-13336-00	All XS750D, All XS750-2D, XS750E ~ 222311
Rotor Assembly	341-13320-02	
Shaft	1J7-13314-01	
Cover, Oil Pump	1J7-13316-00	
*Rotor Width = 24mm		
Housing, Rotor	2F3-13336-00	XS750E 222312 ~ 226036
Rotor Assembly	2F3-13310-00	
Shaft	1J7-13314-01	
Cover, Oil Pump	1J7-13316-00	
*Rotor Width = 28mm		
Housing, Rotor	2F3-13336-01	XS750E 226037 ~ All XS750SE
Rotor Assembly	2F3-13310-01	
Shaft	2F3-13314-00	
Cover, Oil Pump	2F3-13316-00	
*Rotor Width = 35mm
